Auditor-Controller

SUBJECT: **FINAL CASH FLOW REPORT – FISCAL YEAR 2011-12**

Attached is the final cash flow schedule for Fiscal Year (FY) 2011-2012. The combined June 30, 2012 cash balances for the General Fund and the Hospital Funds were positive \$821 million, which was \$389 million higher than our previous estimate of \$432 million. Major variances included higher than anticipated collections of \$100 million from services provided by County Hospitals, \$71 million from charges for other services (primarily public safety services), and \$56 million for mental health programs.

During FY 2011-2012, the County's combined cash balances increased by \$250 million. This represents the first year-over-year increase in the County's cash position since FY 2006-2007. General Fund cash flow advances to the Hospital Funds at June 30, 2012 were \$690 million, or \$326 million lower than the previous year-end balance of \$1.016 billion. The large reduction in the Hospital Funds' cash advances was primarily due to greater stability in the Hospital Funds' budget and cash receipts associated with the new health waiver programs. Hospital cash flows were the largest single factor in the County's improved cash position during FY 2011-12.

The County's cash position is stable and unless significant cash flow issues arise, we will resume monthly reports to your Board in October 2012. If you have any questions, please contact me, or your staff may call John Naimo at (213) 974-8484.
