

THE LOS ANGELES COUNTY POOLED SURPLUS INVESTMENTS

The Treasurer and Tax Collector (the Treasurer) of Los Angeles County has the delegated authority to invest funds on deposit in the County Treasury (the Treasury Pool). As of July 31, 2010, investments in the Treasury Pool were held for local agencies including school districts, community college districts, special districts and discretionary depositors such as cities and independent districts in the following amounts:

| <u>Local Agency</u> | <u>Invested Funds (in billions)</u> |
|--|---|
| County of Los Angeles and Special Districts | \$ 8.005 |
| Schools and Community Colleges | 13.579 |
| Independent Public Agencies | <u>2.195</u> |
| Total | \$ 23.779 |

Of these entities, the involuntary participants accounted for approximately 90.77%, and all discretionary participants accounted for 9.23% of the total Treasury Pool.

Decisions on the investment of funds in the Treasury Pool are made by the County Investment Officer in accordance with established policy, with certain transactions requiring the Treasurer's prior approval. In Los Angeles County, investment decisions are governed by Chapter 4 (commencing with Section 53600) of Part 1 of Division 2 of Title 5 of the California Government Code, which governs legal investments by local agencies in the State of California, and by a more restrictive Investment Policy developed by the Treasurer and adopted by the Los Angeles County Board of Supervisors on an annual basis. The Investment Policy adopted on March 30, 2010, reaffirmed the following criteria and order of priority for selecting investments:

1. Safety of Principal
2. Liquidity
3. Return on Investment

The Treasurer prepares a monthly Report of Investments (the Investment Report) summarizing the status of the Treasury Pool, including the current market value of all investments. This report is submitted monthly to the Board of Supervisors. According to the Investment Report dated August 30, 2010, the July 31, 2010 book value of the Treasury Pool was approximately \$23.779 billion and the corresponding market value was approximately \$23.922 billion.

An internal controls system for monitoring cash accounting and investment practices is in place. The Treasurer's Compliance Auditor, who operates independently from the Investment Officer, reconciles cash and investments to fund balances daily. The Compliance Auditor's staff also reviews each investment trade for accuracy and compliance with the Board adopted Investment Policy. The County Auditor-Controller's Office performs similar cash and investment reconciliations on a quarterly basis and regularly reviews investment transactions for conformance with the approved policies. Additionally, the County's outside independent auditor annually accounts for all investments.

The following table identifies the types of securities held by the Treasury Pool as of July 31, 2010:
