TREASURER'S ACTIVITY FOR SEPTEMBER 2010
AND CASH AVAILABILITY
FOR THE NEXT SIX-MONTH PERIOD

SCHEDULE D

Government Code Section 53646 (b) (3), effective on January 1, 1996, requires the Treasurer and Tax Collector to include a statement in the investment report, denoting the ability of the Pooled Surplus Investment Fund to meet its disbursement requirements for the next six months.

The Los Angeles County Pooled Surplus Investment Fund consists of funds in its treasury deposited by various entities required to do so by statute, as well as those entities voluntarily depositing monies in accordance with Government Code Section 53684.

The Treasurer and Tax Collector is required to disburse monies placed in the treasury as directed by the Auditor-Controller, except for the making of legal investments, to the extent funds are transferred to one or more clearing funds in accordance with Government Code Section 29808.

The Treasurer and Tax Collector, in his projection of cash availability to disburse funds as directed by the Auditor-Controller, is relying exclusively on historical Pooled Surplus Investment Fund deposits and disbursements and future cash flow projections provided by the depositing entities. No representation is made as to an individual depositor's ability to meet their anticipated expenditures with anticipated revenues.

TREASURER'S INVESTMENT STRATEGY

SCHEDULE E

Two portfolios are maintained by the Los Angeles County Treasurer.

The Pooled Surplus Investment (PSI) Portfolio is used to account for all pooled investments. The PSI strategy is to maintain principal and to provide sufficient cash to meet expenditure needs. The cash flow needs of our pool members are monitored daily to ensure that sufficient liquidity is maintained to meet the needs of participants. A review of the PSI Portfolio's cash flow projections at the preparation date of this report indicates that longer average days to maturity may be prudent. As yields increase in the two to three year maturity range, the average days to maturity will be prudently increased to the target of 1.5 years.

In September 2010, the Treasurer placed \$132.805 million in the Bank of the West Money Market Plus Account and \$196.526 million in the Bank of America Money Market Savings Account in accordance with the Treasurer's authority under California Government Code Section 53633. Of these amounts, \$6.555 million and \$61.090 million respectively, remained in these accounts at month-end. These are collateralized in accordance with California Government Code Section 53652. The balances and income are included in the Pool's earnings rate calculations.

The Specific Purpose Investment Portfolio (SPI) is used to account for specific investments requested by various entities to provide for specific needs not available if monies are placed in a pool. The individual investment strategies are targeted for the needs of the requesting entity.

Included in the Los Angeles County General Fund's SPI are approximately \$0.57 million in trust deeds related to the settlement of Flying Triangle and Abalone Cove landslide litigation. In 1986 and 1987, the Board of Supervisors approved the disbursement of funds for trust deed mortgages as part of the settlements of the Flying Triangle and the Abalone Cove landslide litigation. Such disbursements are authorized under Government Code Section 23004. The trust deeds held by the General Fund are fully secured and have fixed interest rates of either 4.50% or 5.50%.

Expected cash flow projections for the next twelve months continue to indicate that sufficient cash is available for participants' estimated needs. We will continue our basic investment philosophy to buy and hold to a designated maturity, high quality fixed income investments.

REPORT OF INVESTMENTS
DEFINITIONS OF SECURITIES

AGENCIES – Securities (debentures and notes) issued by Federal agencies, such as Federal Home Loan Banks (FHLB), and Federal Farm Credit Banks (FFCB). Agency Securities are issued on both a discount and coupon basis and have a variety of maturity periods. A few are backed by the full faith and credit of the United States Government, some are guaranteed by the Treasury or supported by the issuing agency's right to borrow from the Treasury, and some lack any formal governmental backing. Government National Mortgage Association (GNMA) and Federal Home Loan Mortgage Corp. (FHLMC) securities are mortgage-backed.

ASSET BACKED SECURITIES – Corporate notes secured by an identifiable pool of assets such as loans, leases, and installment contracts or trade receivables. The interest rate is fixed and paid either on a monthly or semi-annual basis. In some cases a portion of the principal is also paid monthly.

BANKERS ACCEPTANCES – Negotiable time drafts drawn on foreign or domestic banks to finance the export, import, shipment, and storage of goods. The drafts are sold at a discount and redeemed by the accepting bank at maturity for full face value. Maturities range from one to 270 days.

COLLATERALIZED CERTIFICATES OF DEPOSIT – Non-negotiable instruments evidencing a time deposit made with a bank at a fixed rate of interest for a fixed period, secured by collateral such as United States Government securities or mortgages.

COMMERCIAL PAPER – Promissory notes with a maturity of one to 270 days issued in the open market by various economic entities to finance certain short-term credit needs. Notes are issued on a discount or interest-bearing basis.

CORPORATE NOTES – Unsecured, registered debt securities issued by corporations operating within the United States at fixed or variable rates of interest for a fixed period. Interest for floating rate corporate notes is payable periodically at a rate which is adjusted monthly according to a predetermined formula. Fixed rate corporate notes pay interest semi-annually.

GOVERNMENTS – Negotiable United States Treasury securities such as Treasury bills, notes and bonds. Treasury bills are issued on a discount basis in 3-month, 5-month, and 52-week maturities. Treasury notes and bonds are coupon issues, with one to ten year and ten to thirty year maturities, respectively. Treasury securities are guaranteed as to principal and interest by the United States Government.

INTEREST RATE SWAP AGREEMENT – Contractual agreement in which two parties agree to exchange interest payment streams for a specific term. There is no exchange of principal, but a “notional amount” is established to serve as the basis for calculating the interest payment.

MUNICIPALS – Debt securities issued by state and local governments and their agencies, usually in the form of bonds, notes and certificates of participation. These securities may be short or long-term, and normally coupon issues are secured in some manner by the borrower.

NEGOTIABLE CERTIFICATES OF DEPOSIT – Negotiable instruments evidencing a time deposit made with a commercial bank or thrift institution at a fixed rate of interest for a fixed period. Term certificates of deposits (CDs) are issued with maturities in excess of one year, and normally pay interest semi-annually. Eurodollar CDs are dollar-denominated CDs issued by foreign (mainly London) branches of major American and foreign commercial banks. Yankee CDs are dollar-denominated CDs issued by foreign commercial banks domiciled in the United States.

PROMISSORY NOTE – An unsecured promise to pay between two entities. Notes are on a discount or interest-bearing basis.

REVERSE REPURCHASE AGREEMENTS – A reverse repurchase agreement consists of two simultaneous transactions. One is the sale of securities by the County to a bank or dealer. The other is the commitment by the County to repurchase the securities at the same price at a mutually agreed upon date. The County invests the cash proceeds of the “sale” in other securities. The term of the reverse repurchase agreements may not exceed one year. The securities “sold” are typically treasury issues.

REPURCHASE AGREEMENTS – A repurchase agreement consists of two simultaneous transactions. One is the purchase of securities by the County from a bank or dealer. The other is the commitment by the County to sell the securities back at an agreed upon date and price. The term of the repurchase agreements may not exceed thirty days. The securities “purchased” are typically treasury issues.

Market Pricing Policies and Source:

The Pooled Surplus Investment Portfolio (PSI) is market priced monthly using Bank of New York Trust Company N.A. (BNY) month-end prices. Securities not actively traded, and therefore may not have a month-end price quoted by BNY, are priced in accordance with industry pricing standards and are shown on Attachment IXa. Bond Anticipation Notes are private placements not actively traded, and are not subject to market pricing by BNY. Accordingly, market value is priced at cost. Such non-market priced securities make up 0.12% of the PSI Portfolio.

AVERAGE DOLLAR DAYS 1,524,145 ^{a/}

^{a/} The prescribed bank balance for August was \$1,480,016. This consisted of \$1,375,427 in compensating balances for services, balances for uncollected funds of \$109,313 and a deduction of \$4,724 for August delayed deposit credit.

In accordance with sections 16480 through 16480.8 of the Government Code, the Pooled Money Investment Board, at its meeting on August 18, 2010, has determined and designated the amount of money available for deposit and investment under said sections. In accordance with sections 16480.1 and 16480.2 of the Government Code, it is the intent that the money available for deposit or investment be deposited in bank accounts and savings and loan associations or invested in securities in such a manner so as to realize the maximum return consistent with safe and prudent treasury management, and the Board does hereby designate the amount of money available for deposit in bank accounts, savings and loan associations, and for investment in securities and the type of such deposits and investments as follows:

1. In accordance with law, for deposit in demand bank accounts as Compensating Balance for Services \$1,375,427,000

The active noninterest-bearing bank accounts designation constitutes a calendar month average balance. For purposes of computing the compensating balances, the Treasurer shall exclude from the daily balances any amounts contained therein as a result of nondelivery of securities purchased for "cash" for the Pooled Money Investment Account and shall adjust for any deposits not credited by the bank as of the date of deposit. The balances in such accounts may fall below the above amount provided that the balances computed by dividing the sum of daily balances of that calendar month by the number of days in the calendar month reasonably approximates that amount. The balances may exceed this amount during heavy collection periods or in anticipation of large impending warrant presentations to the Treasury, but the balances are to be maintained in such a manner as to realize the maximum return consistent with safe and prudent treasury management.

2. In accordance with law, for investment in securities authorized by section 16430, Government Code, or in term interest-bearing deposits in banks and savings and loan associations as follows:
