The Los Angeles County Code, Utility User Tax, Section 4.62.040 states, "Nothing in this chapter shall be construed as imposing a tax upon any person or service when the imposition of such tax upon such person or service would be in violation of federal or state statute, the Constitution of the United States, or the Constitution of the State." Any service user that is exempt by this chapter from the tax shall file an application with the Tax Administrator for an exemption. Said application shall be made upon a form approved by the Tax Administrator and shall state those facts, declared under penalty of perjury, which qualify the applicant for an exemption, and shall include the names of all utility service suppliers serving that service user. If deemed exempt by the Tax Administrator, such service user shall give the Tax Administrator timely written notice of any change in utility service suppliers so that the Tax Administrator can properly notify the new utility service supplier of the service user's tax exempt status. A service user that fails to comply with this section shall not be entitled to a refund of utility user tax collected and remitted to the Tax Administrator from such service user as a result of such noncompliance.
