SUBJECT: **FISCAL YEAR 2022-23 CASH FLOW PROJECTION**

Attached is the latest cash flow projection for the General Fund and Hospital Funds. The estimated June 30, 2023 combined cash balances for the General Fund and Hospital Funds are positive \$3.177 billion, and remains unchanged from the previous month's estimate.

Short-Term Outlook

Our previous report estimated the May 31, 2023 cash balances at positive \$3.961 billion. The actual cash balances were positive \$5.330 billion. The variance of \$1.369 billion was largely due to higher than anticipated cash receipts of \$913 million, lower than anticipated cash disbursements of \$134 million and a higher than estimated hospital ending cash balance of \$322 million. We will report the County's year-end cash position in next month's report.
